Senior Technology Manager with 10+ years leading AI, automation, and digital transformation across finance, government, and climate-tech. Proven track record managing $1M+ IT budgets, leading teams of 10+ engineers, and delivering measurable impact: 40% efficiency gains, 15% cost reduction, 30% reduction in manual work, and 60% faster deployments.

Combines strategic leadership with hands-on expertise in AI/ML (TensorFlow, PyTorch), cloud architecture (Kubernetes, Docker, AWS, GCP), and DevSecOps. Co-founder of the climate-tech startup Tree++. Published researcher in Elsevier (Computers & Security). Swedish Institute Scholar pursuing MSc in Computer and Systems Sciences (AI and IoT) at Stockholm University.

Seeking senior management and technical leadership roles where I can drive technology strategy, build high-performing teams, and scale data-driven innovation in Sweden and Europe.

EXPERIENCE

Tree++ (Climate Tech Startup) – Co-founder and Chief Innovation Officer
2024 – Present (Stockholm, Sweden)

- Lead technical strategy, engineering roadmap, and sustainability-aligned vision for AI-powered autonomous drones for reforestation, managing fundraising, investor relations, and strategic partnerships.
- Architect end-to-end AI/IoT platform: computer vision for terrain analysis, autonomous flight control, real-time telemetry processing (1M+ events/day) using Python, TensorFlow, Kubernetes, and AWS.
- Build and mentor engineering team, overseeing hiring, performance management, delivery standards, and technical excellence.
- Manage budget allocation, burn rate optimization, and financial planning for business scalability and growth.

Award: Impact Cup – Drivhuset (2025)

Bank of Brasília – BRB – IT Analyst and DevOps Engineer
2014 – Present (Brasília, Brazil)

- Delivered value through AI and automation initiatives: built production AI chatbot (Python, TensorFlow, NLP) in Silicon Valley reducing customer response time by 40% for 100K+ users.
- Architected DevSecOps CI/CD pipelines (Jenkins, GitLab, Docker, OpenShift, Kubernetes) reducing deployment time by 60%.
- Developed Power BI executive dashboards enabling data-driven decisions for C-suite stakeholders and ensuring regulatory compliance (BACEN, LGPD).
- Collaborated directly with CIO, CFO, and COO to align IT initiatives with business strategy and objectives.

Bank of Brasília – BRB – IT Manager
2016 – 2024 (Brasília, Brazil)

- Managed $1M+ IT budget with full P&L accountability, reducing operational costs by 15% ($150K+ savings) through strategic vendor optimization and contract restructuring.
- Led team of 10+ IT professionals with full responsibility for hiring, performance management, career development, implementing COBIT, ITIL, Agile, and Lean IT frameworks.
- Improved compliance and audit accuracy by 40% redesigning Change and Configuration Management processes, reducing regulatory risk and ensuring business continuity.
- Led organizational transformation initiatives including Lean IT practices (20% waste reduction) and DevSecOps adoption across IT department.

Award: Strategic Configuration Management – Efinance (2019)

Brazilian Institute of Information in Science and Technology – IBICT – Research Engineer
2022 (Brasília, Brazil)

- Customized Archivematica for Kubernetes and OpenShift deployment, enabling scalable digital preservation infrastructure for government agencies managing millions of digital assets.
- Supported national initiatives in knowledge management, data governance, and digital transformation for public sector with improved automation workflows.

Ministry of Integration and Regional Development – MCID – Software Engineer
2014 (Brasília, Brazil)

- Modernized legacy PHP and MySQL systems improving scalability, maintainability, and performance for national integration services.
- Developed responsive web and mobile applications increasing citizen access to government digital services and platforms.

SENAI – National Industrial Training Service – Web Developer and Designer
2010 – 2012 (Brasília, Brazil)

- Developed e-learning platforms supporting 2,000+ students with interactive learning modules, progress tracking, and assessment tools.
- Built PHP and MySQL systems for statewide education programs, optimized UX for digital curriculum delivery and multi-device access.

Award: WorldSkills National Phase – Web Design (2012)

SU Heroes – Hackathon Team – Team Leader
2024 – Present (Stockholm, Sweden)

- Lead multidisciplinary teams building applied AI automation and agentic AI systems, mentor students and engineers in AI/ML, cloud architecture, and rapid prototyping.

Awards: Kong AI Assisted-Coding Hackathon (2025), Kolomolo AI-Assisted Coding Hackathon (2025) & Nordcloud Agentic AI Software Modernization Hackathon (2025)

Stockholm University – SU – Teaching Assistant – Internet of Things
2025 – Present (Stockholm, Sweden)

- Support 200+ students in IoT coursework: Python programming, sensor integration (MQTT), edge computing, and data processing pipelines.

Drivhuset Stockholm – SU – Student Ambassador 2025 – Present (Stockholm, Sweden)

- Support founders and students in entrepreneurship programs, mentor on technology strategy and product development, promote innovation activities across Stockholm University.

DevOpsDays Brasília – Volunteer Organizer 2024 – Present (Brasília, Brazil)

- Coordinate technical conferences with 250+ participants, develop partnerships with industry and academia, curate DevSecOps and AI/ML content.

Alla Ska Få Mat – Volunteer Organizer 2024 – Present (Stockholm, Sweden)

- Help volunteer teams supporting vulnerable families and people experiencing homelessness, optimize marketing and digital presence for community impact.

EDUCATION

Stockholm University – SU – Master of Science in Computer and Systems Sciences (AI and IoT) 2024 – 2026 (Stockholm, Sweden)

- Specialization: Machine Learning, Deep Learning, Computer Vision, Natural Language Processing, IoT Systems, Autonomous Systems.
- Research collaboration with Deep Forestry on autonomous drones and computer vision for environmental monitoring.
- Student Ambassador at Drivhuset Stockholm, Teaching Assistant in Internet of Things (IoT).
- Member of the Network for Global Professionals (NFGP) by the Swedish Institute.

Award: Swedish Institute Scholarship for Global Professionals (SISGP)

University of Brasília – UnB – Master of Engineering in Cybersecurity 2024 – 2025 (Brasília, Brazil)

- Specialization: Risk management, AI for cybersecurity, critical infrastructure protection, and security governance frameworks.
- Published research in top-tier journal (Impact Factor: 5.6) on cybersecurity frameworks for judicial systems.

Publication: Elsevier's Computers & Security Journal (2025) | DOI: 10.1016/j.cose.2025.104584

Massachusetts Institute of Technology – MIT – Designing and Building AI Products 2022 (Boston, USA)

- Specialization: 40–hour executive program on AI product development, deployment strategies, and scaling ML systems in production environments.

Descomplica – MBA in Innovation, Technology & Entrepreneurship 2022 – 2023 (Brasília, Brazil)

- Focus: Business model innovation, technology strategy, startup development, and lean startup methodology.

Descomplica – Postgraduate in Data Analysis 2022 – 2023 (Brasília, Brazil)

- Focus: Statistical modeling, machine learning algorithms, predictive analytics, data visualization, and business intelligence.

Fundação Getulio Vargas – FGV – MBA in Project Management 2016 – 2018 (Brasília, Brazil)

- Specialization: Agile methodologies, Scrum, PMBOK, risk management, stakeholder management, and change management for IT project delivery.

Faculdades Integradas – UPIS – BSc in Information Systems 2010 – 2013 (Brasília, Brazil)

- Focus: Algorithms, data structures, software engineering, database systems, and technology entrepreneurship fundamentals.

SKILLS

Leadership & Management: Technology Strategy, Team Leadership (10+ professionals), P&L Management ($1M+), Stakeholder Management, Cross-Functional Collaboration, Strategic Planning, Change Management, Vendor Management, Budget Optimization, Agile Delivery.

IT Governance & Frameworks: COBIT, ITIL, CMDB, ITSM, BPMN, Lean IT, PMBOK, Risk Management, Change Management, Configuration Management, Compliance, Audit.

Programming Languages: Python, JavaScript, TypeScript, SQL, Java, PHP, Bash, R, Groovy, Erlang.

AI & Machine Learning: TensorFlow, PyTorch, Scikit-Learn, Keras, Hugging Face Transformers, XGBoost, LightGBM, MLOps, NLP, Computer Vision, Deep Learning, Neural Networks, Model Deployment, Feature Engineering, Data Pipelines, Model Monitoring.

Data Engineering & Analytics: Apache Spark, Hadoop, Pandas, NumPy, Power BI, Kafka, MQTT, PostgreSQL, MySQL, MongoDB, Redis, Oracle, ETL Pipelines, Data Warehousing, Business Intelligence.

Cloud, DevOps & Automation: Kubernetes, Docker, Jenkins, GitLab, GitHub, OpenShift, Terraform, Ansible, AWS, GCP, Azure, CI/CD, DevSecOps, Infrastructure as Code, Grafana, Zabbix, Observability, A/B Testing.

Integration & Architecture: REST APIs, GraphQL APIs, Microservices, Event-Driven Architecture, Distributed Systems, IoT Integration, Node.js, React.

Tools & Platforms: Jira, Trello, Teams, Git, Linux, Jupyter, MLflow, TensorBoard, SonarQube, Nexus, Lovable, Temporal, n8n.

Languages: Portuguese (Native), English (Fluent - TOEFL Certified), Spanish (Intermediate), Swedish (Beginner).

CERTIFICATIONS

Leadership: Women's Leadership Program (SOUL, 2024), Self-Leadership Program (Hyper Island & Swedish Institute, 2024), Collaborative Approaches to Societal Issues (Stockholm School of Entrepreneurship, 2024) | **AI & Data:** Designing & Building AI Products (MIT, 2022), Data Analysis (ENAP, 2023), Business Intelligence Foundation (Certiprof, 2024) | **IT Governance:** DevOps Master (EXIN, 2020), Lean IT Foundation (EXIN, 2019), COBIT 5 Foundation (ISACA, 2015), ITIL V3 Foundation (EXIN, 2015) | **Agile:** Scrum Foundation (Certiprof, 2019), Lean Six Sigma White Belt (Certiprof, 2024) | **Language:** TOEFL iBT (ETS, 2024)
